

Dealer's Upcard is In-Between  
a Player's First Two Cards

**In-Bet is an Exciting  
New Side Bet That  
Offers Five Chances to Win!**

IN-BETween wager is a bet that the Dealer's up-card falls IN-BETween the Player's first two dealt cards, according to the "RANK ORDER": 2-3-4-5-6-7-8-9-10-J-Q-K-A, and is lost otherwise. See payable for odds.

### **Triple Match**

The only exception to this IN-BETween rule is if the Player is initially dealt two cards of the same rank and the Dealer's up-card is also of the same rank. This is called the Triple Match and pays the highest odds on the payable.
