

OVERVIEW

3 Card Blitz is an exciting new flush based game between you and the dealer. Player and dealer are both dealt 7 cards. The object of *3 Card Blitz* is to make the highest scoring hand using up to 3 suited cards from the 7 you are dealt.

HOW TO PLAY

- Players start by making equal Ante and Blind bets.
- Players can make the optional Flush Bonus side bet, and the STAX progressive wager.
- Players and dealer are both dealt 7 cards face down.
- Players may fold (forfeiting their Ante and Blind bets) or make a Play bet equal to the Ante.
- Players make their highest scoring suited hand using up to 3 of their 7 cards.

HAND VALUE

Each card is given a point value: 2's through 10's have their own rank as their value; Jacks, Queens and Kings have a value of 10; and Aces have a value of 11. All cards must be suited to create a hand. A *3 Card Blitz* is an Ace and two 10-value cards for a total of 31.

The dealer will make their highest scoring suited hand using up to 3 of their 7 cards. If your hand total is higher than the Dealer's, your Ante and Play bets are paid even money. The Blind bet pushes unless the Player's winning hand total is 27+ in which case the Blind bet is paid according to the posted pay table.

The Flush Bonus bet pays according to the posted pay table, and is based on the total number of suited cards in the player's hand.

The 5-meter STAX Progressive pays jackpots for premium player hands. Only the highest win pays, except in the special case that a player has a "Double Blitz", player wins both the \$1,000 payout and any qualifying Royal Blitz Jackpots. See the STAX Progressive sign for pays.

Malfunctions void all plays and pays. Bet with your head, not over it. If you or someone you know has a gambling problem and wants help, call 1-800-gambler.
